CIVIL JOB READY PROGRAM

Civil construction has a variety of career starting points with many different pathways into many different and rewarding careers.

The civil construction industry welcomes everyone, regardless of sex, age, ethnicity, income level or social status.

Training is available on the job, Australian apprenticeships are available to anyone of working age and professional development is available throughout your career. Many a labourer or apprentice has gone on to become the CEO or a leader in their field.

Training included

- Prepare to work safely in the construction industry
- Identify, locate and protect underground services
- Carry out manual excavation
- Communicate in the workplace
- Conduct roller operations
- Work as a safety/observer/spotter
- Operate small plant and equipment

How to start training in Civil
